

# Mustang Round Up

Our first car show of the season was the Mustang Round Up that was held at the Museum of Transportation on April 5th. Although a Mustang event, the good folks with the Mustang Club of St. Louis invited all of our club members cars and trucks.

As in the past our turnout was large with about twenty members in attendance. On that day, the family of Stan Musial was at the park to donate Stan's Cadillac to the automotive collection.

The cool crisp morning turned into a great day and a great way to get our club cars and trucks out for the first time.
