

Fall Color Tour

Another great color tour is in the books and a great one it was. With 37 cars and trucks and about 70 people, we had to split our caravan up in groups. After touring the back roads of St. Charles County and a pit stop at the Katy Trail State Park, we toured the Daniel Boone Home at Lindenwood Park. Although the home was built by his son, Nathan, it was the home of Daniel during his later years and was where he died. The home has been restored along with a village of historic homes and even a 1850's grave yard across the road.

Our tour ended at Broemmelsick Park in Defiance, Missouri. This may have been our best location yet as to was on top of a hill with a scenic view of the lake and park with a great breeze. This very modern park is a great place for our picnic. The shelter had a fire pit, but with record setting high temps, it was not needed. Our meal was catered by Sugar Fire and we were well pleased, along with the fine deserts that our members provided.

We thank Terry and Sue Koch for recommending the park, to Jack Greiwe setting up the route, and to Bill Bauer, Syl Biermann, and Dan Kelly for working out the final details.
