

Fall Color Tour

As the chilly fall morning turned into a sun filled day, our club headed to Cuba, Missouri for our annual fall color tour. After meeting at the Route 66 Park Visitors Center, we headed down the Old Route 66 Byway for a scenic trip down memory lane. That day, we had our choice of any of the fall colors along as it was green. Apparently, the fall colors had their own agenda.

After a stop for needed R&R, we headed to the Cuba Fest that was held in downtown Cuba. We were able to visit their history museum, shop crafts, and even taste a little wine. The hard part was fighting off the temptation to purchase some of the good smelling food items being sold at the booths, as we would soon be heading to lunch.

The day was complete when we headed down the road to Bob's Gasoline Alley. This was our 4th trip to Bob's and as always, it was not a disappointment. If you missed our tour, you missed a great day. Upon arrival we were treated to a buffet of home made items and a desert table to die for. Bob has an unbelievable collection of neon signs and clocks, hundreds of dye cast cars, trucks, and motorcycles, vintage gas pumps and far more items then we can list here.

After a full day, our 29 cars and 58 members headed home. We thank Syl Biermann for setting up this great fall outing.
