

Fords Unlimited 30th Car Show

Timing was everything for our record setting, 30th annual car show. What a day, with rain in the forecast most of the week, the rain held off until Sunday night.

After two years of a downturn in attendance at our show, due mostly to heat and rain, we broke our previous record of 286 entrees with a total of 290 this year.

One of our goals is to have a car in every class which we did although one car was parked in the wrong class. As with any show, the larger attendance creates more problems but those are problems we love to have. As usual the FCA classes brought out many outstanding cars.

Special thanks go out to Dave Sinclair Ford and all of our class sponsors who make this show possible.

The success of the show takes so many people to accomplish. We normally name our members who do so much but I always seem to leave someone out but from the show chairman to what may seem like smallest job at the show, we couldn't do it without you. Great job everyone.
