

Mustang Club of STL Car Show

People riding the museum train were able to view Bill Bauer's trophy winning Cougar convertible.

The show marked the welcome return of Vern Anderson and his 1st place winning Falcon drop-top.

The Mustang Club of St. Louis held their second car show on June 18th. This year the show was moved to the Museum of Transportation in West County. Unfortunately, the inclement weather, with a treat of more to come, led to a poor turnout. As it turned out, the skies turned blue and the only complaint was that it got hot and muggy. The attendance was only 84 cars and trucks but considering that some of our members were in Tulsa for the Mid America Shelby Meet, we managed to have ten entries. The event was held to support BackStoppers and we donated the \$50 club participation prize that we had won back to the BackStoppers.

Bill Giese's Roush was one many fine specialty Mustangs with Bill's ride also being a trophy winner.

Always the cleanest car in the show, Mark Wisbey's black Mustang convertible featured some new graphic's this year.

Burt Pennington's Explorer

The club tent offered some relief from the hot sun.

This view shows the awesome stance of Mark Carey's prize winning '89 LX.

How many of you clean your ride by getting on the roof? Ron Walters does and beat out 2 Cobra's to take home first place.

Bob Layton's 1966 Mustang stood alone (the only car in the class), and did also manage to trophy.

With dad's help, Jim Biermann brought both of his cars to help support the cause.
