

Mustang Roundup

Our car show season started off on a rough note as the Mustang Round Up, held at the Museum of Transportation, had to be moved from Saturday the 14th to Sunday the 15th due to heavy rain. As our friends from the Mustang Club of St. Louis opened the show to all of our Blue Oval cars, all of our club cars were welcome. Sunday also had bad

weather coming for late afternoon but we took advantage of the small window of opportunity and had 6 of our members who displayed their cars. The turnout was somewhat small due to the weather, but our club was nicely represented.

We were also able to show off our new door magnets that afternoon.
