

Our club had 2 shows planned for the weekend of September 8th and 9th but mother nature had other plans. On Saturday, the Manchester parade and car show were cancelled. The Wheels in Motion Day on Sunday started out rainy and cold and didn't improve much until late afternoon. Even so, we had 15 member cars registered and 24 members and family in attendance. We even recruited a new member as Jake Turnipseed was busy. The warmth of the McBee truck comforted some of the members of our fairer sex in the morning. After lunch at Westport Social, we came out to some warm sunshine.

The show benefits the National Children's Cancer Society and all of each \$20 entry fee goes to the charity, plus our club donated an additional \$300. We were responsible for \$580 of the donations plus raffle tickets purchases. Five of the car clubs were allowed to pick a car for a special award. Our Dan Kelly picked out a nicely restored Packard. The GTO club picked Bill and Donna Bauer's

Cougar for that award. As this was not a real car show with no trophies, it shows the generosity of our club members.
