

Wheels in Motion Day

Nineteen years ago, under the direction of the First Capitol Classics Auto Club, several local car clubs banded together to have an event to help kids with cancer. That's when Wheels in Motion Day was founded. The original event included a parade that ended up on the St. Charles riverfront. Later, it was moved to its present location, Westport Plaza. Members of our club supported from the

beginning and later our club provided funding for this worthy event.

This year, we provided 20 cars and trucks and again a donation from our treasury. Come noontime, Fuzzy Taco's provided our much needed lunch. The weather that day was outstanding and a couple members of our club took home specialty awards, which included Scott and Lynette Lewis and John Saxton. The profit from the show will benefit the National Children's Cancer Society.
