

On a rainy Sunday morning on September 8th, some of our brave members met at Sybergs to caravan to the Wheels in Motion Day. Sadly, the rain kept the attendance down on this annual fundraiser that benefits the National Children's Cancer Society. Our club did our share with nine members entering their vehicles and a donation from our treasury. This yearly show is put on by several local car clubs.

Our morning was spent under the club tent trying to keep dry. By noon, some of our group headed to Patrick's for lunch. By then, the rain had stopped and although humid, the afternoon weather had greatly improved. The day was a good way to help kids in need and spend the day with a good group of friends.
