

ALL FORD CRUISE

JULY 9, 2011

Our club, along with the Show-Me Mustang club, held our all Ford Blue Cruise on July 9th. Although somewhat warm, there was a steady breeze and as the sun set, it turned into a beautiful evening.

The Pur Performance facility is a great location in central St. Charles County. The store stayed open late for our event.

It was a “good news, bad news” kind of day. The bad news was that our car count was down from last year. The good news was that the crowd was quite generous. With outside donations, club donations, 50-50 profit, concessions, and participant donations, we were able to collect over \$2,500 to be donated to The BackStoppers. The car clubs shouldered the expense of the DJ and concessions.

The real stars of the show were the police officers and equipment supplied by the St. Charles County Regional SWAT. Their two vehicles, along with a Lake St. Louis Police cruiser, drew the crowds all evening.

Thanks go out to the Mustang Club of St. Louis for their great support of over 20 Mustang entries. Special thanks go out to Pur Performance for the use of their facility and to the members and families of both clubs for all of their work on this very worthwhile event.

Each club took turns collecting donations as the Blue Oval crowd arrived. The event was really a low work event.

We were a little disappointed with the lack of police and fire vehicles in attendance but the St. Charles County Regional SWAT saved the day and did more than their part to supporting the cause.
